

University of California, Berkeley

College of Engineering

Haas School of Business

School of Information

Management of Technology Lecture Series

Wednesdays 4:00 – 6:00 PM

Wells Fargo Room, Haas School of Business

March 14

Vinod Khosla

Khosla Ventures

Investing in Energy

Vinod Khosla is considered by many one of the most successful entrepreneurs and investors of the 20th century. His current investment focus is on innovations in renewable energy, microfinance and the environment.

March 21

Geoffrey Moore

Mohr Davidow Ventures

The Business of Technology

Few individuals in Silicon Valley are as well known or as widely quoted as Geoffrey Moore. Author of *Crossing the Chasm*, *Inside the Tornado*, and *Dealing with Darwin*, Moore is a leader in guiding high tech businesses worldwide.

April 4

Randy Komisar

General Partner, Kleiner Perkins

Silicon Valley's New Investment Environment

Kleiner Perkins Caufield & Byers is a top-tier venture capital fund known for record-setting investment returns. General Partner Randy Komisar will explain how the firm makes its picks, and the current environment for entrepreneurs.

April 11

Michael Marks

Kohlberg Kravis Roberts

Global Investing

After serving as CEO of Flextronics for 13 years, Michael Marks joined KKR in 2005, leading investments in technology businesses. Since 1975, KKR has invested in more than 130 transactions totaling over \$162 billion.

May 2

Mark Kvamme

General Partner, Sequoia Capital

Opportunities in Technology Investing

Mark Kvamme is widely known for his successful launch of Apple Computer in the European market and for creation of Internet companies in the 1990s. At Sequoia, Kvamme leads new investments in software and services start-ups.

Admission to the lecture series is free to students, faculty, and the University of California community. The Management of Technology Program at UC Berkeley is a graduate research, teaching and certificate program managed jointly by the Haas School of Business, the College of Engineering and the School of Information. For further information on the program or the lecture series, please contact Susan Reneau at sreneau@haas.berkeley.edu or 510-643-1398.
